INDEX DOMORUM

In hoc Indice inveniuntur:

- 1°: Series historica Provinciarum Ordinis.
- 2°: Series Domorum per Provincias dispositarum.

Unaquaeque Domus in illa Provincia reperitur ubi olim sita est, vel, pro recentioribus Domibus, ubi sita esset si adhuc superessent omnes antiquae Ordinis Provinciae.

Pro singulis cujusque Provinciae Domibus, ordinem elegimus qui semper olim servatus est in Chartis Capituli Generalis, incipientes scilicet ab antiquioribus.

Pro unaquaque Domo indicatur, quantum res sinit, annus incorporationis (anno foundationis plerumque recentior), necnon annus ultimae suppressionis, si quam passa erit.

Deinde apponuntur diversa vocabula sub quibus Domus nominatur in codicibus. Sunt etenim tria genera nominum aequaliter in usu apud nos: nomen loci - nomen proximae urbis - nomen coelestis patroni.

Post autem Domus nomen veniunt Ordinationes ad eandem pertinentes, duobus numeris signatae, quorum primus locum Ordinationis in corpore operis, secundum vero annum re-dactionis significant.

Ad calcem Indicis hujus apponitur series Ordinationum Generalium ad omnes Moniales pertinentium; particulares vero stant sub nomine cujusque Domus Monialium, in Provinciis.

NOTA: Quoad quatuor Ordinationes sub numeris sequentibus venientes, scilicet:  
1082(1380) - 1906(1381) - 2376(1392) - 2505(1395)  
adhuc desiderantur nomina Domorum quae jam in codicibus minime reperiuntur.
